RIC Weekly Note #8

Lecture Content

- Extended Kalman Filter
- Localization using Range and Distance measures
- Data Association
- SLAM (briefly)
- Probabilistic Localization without a Kalman Filter
- Mapping at an overall level

Literature

- Chapter 8.3 + 8.4
- Chapter 9.1 + 9.2 at an intuitive level

Exercises

- Sketch the principles of a particle filter
- Compare the properties of particle filters and Kalman filters
- Sketch how to use an occupancy map for localization
